TERRA COTTA and SCAGLIOLA manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs, and sold at No. 1 Wharf, Broad-street, Paddington. Vases, statues, friezes, capitals, coats of arms, chimney shafts, crosses, flower pots, and all ornamental work required to stand heat and frost without cracking or changing colour, may be had at nearly the same cost as casting in cement.

Terra Cotta is more durable than iron, granite, marble, or stone, and may be made of black, red, and light cream colours of every shade. It can be more uniform and delicately wrought than either stone or marble, and architects can have their own designs modelled and fired in this material (without moulding and the chance of warping) fresh from the hands of the artist.

PRIZE MEDAL for TERRA COTTA to B. H. BLANCHARD, late of Cowley Original Works, being awarded for quality of Material and Workmanship.

B. H. B. begs to solicit the attention of the Nobility, Gentry, Architects, Builders, &c. to the invaluable and imperishable material that has been and is now adopted by our eminent Architects and others in the adornment of our noblest buildings, its being applicable to groups, statues, friezes, capitals, panelling, finials, terminals, Tudor and other chimney-shafts, balustrading, fountains, fonts, tazzas, vases, coats of arms, devices, ornamental ridges, and every description of Architectural embellishment, at prices, &c., defying competition.

CHIMNEY-PIECES.—Great Exhibition Prize-Medal, Class 27.—The attention of Architects, Builders, and others is requested to a new article in CHIMNEY-PIECES, patented and manufactured solely by C. ILES and CO. These Chimney-Pieces in variety of marble, in workmanship and durability, combined with lowness of price, challenge a comparison with all others. An inspection of stock is respectfully solicited.—CHAS. ILES and CO. Sole Patentees and Manufacturers, Patent Marble-Works, Bradford-street, Birmingham; and 7, Newman-street, Oxford-street, London.

TO ARCHITECTS, SCULPTORS, BUILDERS, STONE and MARBLE MASONS, &c. &c.—ALABASTER QUARRIES, CHELLASTON, near DERBY.—Alabaster in blocks of almost any size, and of very superior quality, may now be obtained from these quarries on application to

Messrs. JOSEPH SMITH and SONS,

HORNINGLOW, near BURTON-ON-TRENT.

This stone was extensively used during the Middle Ages for Monuments and other Ecclesiastical Decorations, and since that period until now has not been obtained in blocks of any size. Its colour is white, and beautifully variegated. It is readily worked, and capable of taking a high polish which renders it suitable for every kind of Internal House Decoration.

Agent in London, Mr. WILLIAM FIELD, 38, Holywell-street, Millbank; Depôt, 34, Wharf, Paddington, where a stock is always on hand.

ASPHALTE for RAILWAY ARCHES, Bridges, Platforms, and every description of Basement Flooring, on per ton. Tools and experienced workmen sent to any part on per special agreement.—GERVASE FOOTITT, Asphalte Works, Rotherhithe. Established 1834. Importer of Trinidad Asphalte.

TO ARCHITECTS.—Frequent complaints having been made by ARCHITECTS and others, of the failure of certain works supposed to have been done by this Company, that which in fact were executed with spurious materials, a list of all works executed with the genuine Seyssel Asphalte is kept at the Office, that it may be at any time ascertained whether any work in which a failure has taken place was executed by the Company.

J. FARRELL, Secretary.

Seyssel Asphalte Works, Stangate, Lambeth.

ESTABLISHED 1838.

N.B. The exclusive supply of Asphalte from the Mines of Pyrimont Seyssel being secured to this Company, the Directors particularly recommend Architects, Builders, and others, for the purpose of securing the use of the genuine article, to insert in their specifications "Seyssel Asphalte, Claridge's Patent," and not merely "Asphalte, or "Bitumen," as in many cases where these terms have been used, inferior and other worthless and offensive compositions have been introduced.

1853.

BARROW LIME.—This celebrated hydraulic Lime from the Blue Lias Stone, can now be forwarded by railway from the kilns to any part of the kingdom. It is becoming much more generally used for Concrete, and can be supplied ready ground for that purpose. Price, &c. may be obtained on application to JOHN ELLIS and SONS, Leicester.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors of the above, is the best recommendation.

Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Tiles, Stoves, and Fire Goods.

ROMAN, PORTLAND, FABIAN, ANSTON, and LIAS CEMENTS of the best quality.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed to the Trade, on reasonable terms, by J. HICKEY, 103, Bunhill-row, Finsbury-square, for Cornices, Capitals, Panels, Friezes, Balustrades, Vases, Chimney Shafts, Fronts, Balconies, Fronts, &c.; Balustrades and other Ornaments, Fonts.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hanover Square Parish Church.

JOHNS and CO. have obtained prize medals for their improvements in the manufacture of this very valuable material, which, in addition to the notice of the Trade and Public, has received the patronage of many of the Nobility and Gentry. Their Stock of Whiting Colours for STUCCO or BRICK WORK, in Oil or Water Colours, may be obtained in any shade.—DOES NOT FLAKE OR CRACK, and may be twenty-four hours, and, being a non-conductor, is peculiarly adapted for Railway Stations, Outlet Warehouses, Factories, Schools, Prisons, &c. One cwt. will cover 300 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—The cement, from the great reduction in price, and its superiority as regards as well as external surfaces, places it above all other materials of the kind. It has an opaque consistency, may be painted or papered in a few hours; hence houses, outside or inside, can be occupied in half the time; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and enjoyed great generality. Numerous testimonials, prospectuses, and every information may be obtained on application to the Sole Agents, PHILIP HAKE and Co. at the Warehouse, 38, Shoe-lane, Upper Thames-street. A liberal allowance to wholesale dealers.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Potmakers, Nine Elms, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.

Light and Dark cements to any shade.

Also, Manufacturers of PLASTER of PARIS, &c.

Importers of MARBLE and PORCELAIN.

Dealers in Stucco, Slabs, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS, Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terra and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Troughs, &c.

Manufactory, Mill Wall, Poplar; Depôts, Queen-street, Lambeth, and Paddington-bank.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster, and Sun-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well known hard stucco so dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brickwork, it may be mixed with three to four parts of sand; and, for concrete, it will carry two to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Sun-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels, QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality, an demonstration never before attained in Portland Cement. It possesses extraordinary cementitious qualities, equals the cement of Frost and Aspdin, and is more durable than any other Cement; does not vegetate in the green, or fresh, state, and, from which its eminent hydraulic properties stamp it as more as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. CHARLES, 6, at his Works, near the River Avon, and sold to all parts of the Kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Kill-call, Poplar; 8, Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. submit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders addressed at the Works, and at Great Scotland-yard, Whitehall.

March, 1853.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour, and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Kingsdown and Portland Cement Plaster of Paris Works, Faversham, Kent, at which place, or his depôt in Church-lane, London, 4, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PATENT PORTLAND and ROMAN CEMENTS.—WINKFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for either of the above Cements, which they are quite prepared to prove equal any others in their cementitious qualities at present manufacturing. Many highly respectable references can be given where their Cements have been successfully used. Orders addressed to their Works will be punctually attended to, and terms easy. Where quantities are required, a superintending person will be made.—Agent at Southampton, Mr. GEORGE SHARPE, Union Wharf.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg; at a similar work at Alderney; and at Dover new pier, to unite the masonry. The foundations of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and rough shingle. The work extends 350 feet into the sea and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Rookpool, Isle of Wight.

Agent for Southampton, A. L. PLUDER, American Wharf.
